Dear Earl, 5/27/81

While I don't expect the enclosed FBI records to add materially to what you and Gary know, they can give you a reading on the faithfulness with which Specht reflects the conferences in what he files and Dallas forwards to HQ.

In his own records it is apparent that the FBI did not break its back to get a copy and be able to make the promised analysis.

I received these after I got the notes, of which I loaned you copies.

Make copies if you'd like but please return these for my own subject filing.

Best wishes,

Records from 5/27/81 0322 appeal on Bronson, Oswald
folder & police tapes
